

Curriculum Vitae

Personal Data :

Name	: Karima Fadhil Ali
Date Of Birth	: 1958
Gender	: Female
Scientific Title	: Assist. Prof.

Objective :

❖ To use my skills and knowledge for academic development

Education :

- ❖ M.Sc. pharmacy / Punjab university / Pakistan / 1985
- ❖ B.Sc. pharmacy / Baghdad university / 1982

Scientific experts:

- ❖ Assistant Prof. Department of Pharmaceutical Chemistry, Faculty of Pharmacy, Al-Mustansiriyah University.
- ❖ A member of the scientific committee of Pharmaceutical Chemistry department.
- ❖ A member of the scientific promotion committee.
- ❖ A member of the committee of quality and performance of university.
- ❖ Member of the Iraqi Pharmacist Syndicate.
- ❖

Personal skills:

- ❖ Scientific Resident for Two Master Thesis in Pharmaceutical Chemistry 2015.
- ❖ Supervisor of four M.sc Thesis.
- ❖ Member of examining committee for Four M.sc. students
- ❖ Participation and Attendance of several conferences and scientific symposium

Awarded certificates and thanks books:

thanks books: 12

Awarded certificates: 2

Publications

1. IR and UV –visible spectrophotometric interpretation of the molecular structures of some new naphthoquinone semicarbazone derivatives.
2. Gamma radiation effects on some antibiotics behaviour against staphylococcus aureus species .
3. Neonatal jaundice: bacterial infection and etiological association .
4. synthesis of some dihydropeptide derivatives part (2).
5. Microbiological studies of a new naphthoquinone semicarbazones derivatives.
6. A study of some physical properties for B12 in aqueous solution at four temperatures .
7. Evaluation of electrolyte in adult patients with acute leukemia before and after chemotherapy .
8. Study the Effect of Folic Acid as A supplement on Selected Oxidative Stress and Biochemical Parameters in First Trimester of Pregnancy.

9. Serum Osteopontin Growth hormone , and Other Biochemical Parameters in Children with Acute Lymphoblastic Leukemia.
10. Estimation and evaluation of the effect of pH on ciprofloxacin in drug formulations.
11. Synthesis and Total Phenol Content of New Resveratrol Derivative.
12. New Assay Method UV Spectroscopy for Determination of Indomethacin (Indocin) in Pharmaceutical Formulations.
13. Cefotaxime Dithiocarbamate as Metallo-antibiotic with binuclear NiII, PdII, PtIV Complexes Synthesis, Characterization, Kinetic and Biological Activity Studies.
