

# Project Work

## \* What if you were not a human Being? What if you were a bird?

- What kind of animals would you like to be? Would you like to be free like birds? You go wherever you want to go without having visa or crossing borders; or strong and fearsome like lions and tigers? No one dare to annoy you; or may be mild like lambs? Having a peaceful life; or as proud as a peacock or the cock of the walk? People just admire you for your look. Would you like to have a strong sight like a hawk and see what others can't see? or you would like to be domestic like a fish you can't leave your home?
- Do you know that humans and animals share the same features? Some of them are insincere like snakes; others are crooked like a fox. Some are curious like cats they don't leave you alone; others are seasonal you can't see them all the time like emigrant birds but you know they will comeback again. Some are talkative like parrots they just repeat you; others are just quiet and beautiful like a swan in a lake. You can't take your eyes off them.
- Think of other animals and their features and what kind of symbols they make in life. What are some animal idioms?
- Consult the dictionary or any idiom books or the internet.
- Write a composition on one of these two subject:
  1. If I Were A Bird. ( or anything else, make your choice)
  2. People in My Life.
