By

Wala Sabah Tawfeeq

Allah (to whom be ascribed all perfection and majesty) said :

(And one of his signs is this, that he has created wives for you from among yourselves that you may find peace of mind in them and he has put love and tenderness between you. In that surely are signs for people who reflect.)

al–Rum sura == verse 21

allah created male and female making marriage system between them for continuing the life and humankind , from this system , the family foundation was produced. This family contained father, mother and their children.

Allah made family system as the single system for humankind and put the laws which must be followed and it is bad results for who disobey these laws.

Islam by Quran and Sunna put conditions and basics for the family and put the solutions for the problems when they to be gotten and these problems naturally must be gotten for the nature of the life.

The life of companions of the prophet (Allah blessing and peace be upon him) had some of these problems and the prophet put the solutions for them, the house of prophet had good examples for putting solutions for the problems which increased in Islamic society in this time.
