Abstract

Jesus Christ was a global figure with universal features . He was a prophet and messenger sent by God . There were many tests and examinations all over his life which contributed in forming his character .

Jesus Christ was one of the prophets whose impact was very serious concerning applying divine justice on the earth . He , therefore , forced many misfortunes and enemies and haters .

The meaning of truth that he put forth made his enemies fight him and try to force

him out his homeland in two ways : The first was by killing the person with familiar means in that time . However , God frustrated their plans and devil trials , that Divine support to safeguard his prophets and messengers was to complete the evidence for those who didn't believe in God and obey his orders . Consequently , that Divine support would pave the way for the state of Divine Justice when certainly the oppressed take right from the oppressive .

The second way was by killing the personality which meant overthrowing him and instigating people upon him by the Pharisees and the others . They fabricated biased rumors about him and his family to make people desert him , and then he would become without any followers and advocators . Consequently ,it would be easy to kill him alone . One of those rumors was by accusing him and his mother the Virgin Mary that he was illegitimate son . The other rumor was by charging him with claiming divinity . That rumor would , no doubt , lead to killing him , for the Jews knew that the claim was not possible for the Christ and his mother Mary .

The truth of Jesus Christ was an object of many inquiries , starting from his blessing birth which disagreed with natural laws , that he was without father . That birth was not the first which contradicted natural laws , that Adam's birth was more marvelous , for he was without parents .

Jesus Christ came with many marvelous miracles which were agreeable with medical development in his age . He recovered the patient and gave life to the dead by the authority of God . In addition , the Christ chose twelve Disciples who had good power to complete his mission for spreading goodness and sublime morals which the former prophets tried to introduce for purifying souls from sins that made man as an animal or worst .

The second dimension of the character of Jesus Christ was the spiritual dimension by which he purified hearts from darkness of their bad deeds that were not agreeable with the morals of the prophets . The Christ translated divine morals into the earth . That deed resulted from struggles which provided him with power in his religion and complete ability to obey the orders of God until he came with miracles by the authority of God .

The Bible , the New Testament , was divine book sent down by God , and it was mentioned in Koran . Some people changed its origins and falsified it . Then , the true text with which The Christ came was missed . Some Gospels , therefore , were written confusedly in letter and spirit .
