

المستخلص ABSTRACT

أسماء محمد ناصر. البحوث المنجزة في العلوم البيئية : دراسة تحليلية. (رسالة ماجستير) .- بغداد : الجامعة المستنصرية : كلية الاداب : قسم المعلومات والمكتبات ، ٢٠١٠ .

The study aims at recognition on motive of mental production in Environmental science in Arabic Language from ٢٠٠٣ to ٢٠٠٧ by scientific researches represented by (internal Researches , university Dissertation, including high Diploma – M.A , PhD , periodical Researches Scientific conferences, Symposiums Researches , Technical Pamphlets , Seminars , Reports , identify on matters more production and the reasons of that , Indicating the Sub and main objective trends of Ecology and it related with another Sciences , The study used documental – Survey Concept to analyses the information for Society consist of (٧١٥) research in Ecology are distributed into (١٤) main Subject (٩٦) Sub Subject , The Study indicated the following results :-

- ١- The production of researches become its higher levels in ٢٠٠٧ from (٢٣٣) research and percent (٣٢,٥٨٧%) among Total thing for researches , but for every years , in ٢٠٠٣ in ٢٠ Research and with Percent (٢,٧٩٧%) of Total of research .
- ٢- It was indicated through the objective analyzing , that Ecology has relation with another Sciences , including Social Sciences whereas Occupied the first rank of number of researches in fact ٢٣٨ researches with percent ((٣٣,٢٨٧%)) from the Total of Mental production . But the second rank it was the share of practical science by ٢١٤ research with percent ((٢٩,٩٣٠%)) , but the minimum of researches it was from physical science by ٨٨ researches with percent ((١٢,٦٠٨%)) .
- ٣- Through objective analyzing , it was indicated that Ministry of Environment and subordinate to it verified maximum of researches it was percent ((٢٦,٨٨٠%)) in by ١٩٣ researches and has taken (occupied) first rank , by the department of publishing for achieved researches , but the less departments to make research it were One research was percent ((١,١٣٩%)) with Engineering , Commission of Technical Education etc.

- ٤- And upon to what the study acted , There searcher has illustrated many recommendation as follows ,
١. Focusing to compose rules and Iraqi Environmental information to account mental production in Environmental Science through Cooperation between Ministry of Environment, Ministry of Science and Technology, Ministry of higher Education and Scientific research.
 ٢. Calling for interesting to common composing to product the researches , whereas help that to exchange the opinion and experiences concerning in the researchers in Iraqi Universities at least (The collages and departments of Environmental Engineering), researching centers , and invite the Teachers and professors to the researching Centers to attend .The conferences pertain in Environment that has been met inside and abroad Iraq and following up updating publisher of researches and books during variety publishing media .
 ٣. Working to provide the sources, foreign and Arab references and companion tools or equipment to emerge psychological aspects of researches through the indexes, appendixes and bibliographies.
