- Member of the Iraqi Medical Doctors' Syndicate since 2002

Experience:

- 2002-2004: I worked as a resident doctor (resident house officer) in the major governmental hospitals in Baghdad, fulfilling duties in the following departments:
 - General medical ward,
 - Coronary care unit,
 - General surgical ward,
 - Orthopedic surgical ward,
 - Emergency room,
 - Gynecology ward,
 - Delivery room,
 - General pediatric ward,
 - Neonates ward,
 - Pediatric emergency room,
 - Outpatient clinics of ophthalmology, otolaryngology, & dermatology.
- 2004-2006: I worked as a medical tutor in the Department of Anatomy, Histology & Embryology, College of Medicine, Al-Mustansiriyah University.
- 2006-2008: I was a medical tutor & MSc candidate in the Department of Anatomy, College of Medicine, Baghdad University.
- 2008 till now, I'm a lecturer in the Department of Anatomy, Histology & Embryology, College of Medicine, Al-Mustansiriyah University teaching the following courses:

- Human anatomy & Medical biology to the 1st year medical students,
- Human anatomy, medical histology & medical embryology to the 2nd year medical students.
- Recently, I was invited to be a visitor clinical embryologist in the Infertility Center of Al-Yarmouk Teaching Hospital, Baghdad, Iraq.

Training courses:

- Comprehensive course in university teaching methods; College of Education, Al-Mustansiriyah University (2009)
- Comprehensive hands-on certificate course in clinical embryology; Chennai Fertility Center, Chennai, India (2011)
- Training course about Good Clinical Practice (GCP); AstraZeneca pharmaceutical company, Dubai (2011)
- Certificate course on chromosomal abnormalities diagnosis, National Center for the Research & Treatment of Cancer, Baghdad, Iraq (2013)
- Certificate course on inherited blood diseases, National Center for the Research & Treatment of Cancer, Baghdad, Iraq (2013)

Other Activities:

I'm highly interested in the scientific activities held Baghdad & other Iraqi governorates. I had participated actively in the annual scientific conference of my college, & a large number of other conferences & symposia held in the teaching hospitals, specialty institutions, & medical college all over Iraq.

Hobbies:

Painting, poetry, travel, & football.

Ambition:

I look forwards to improve the level of medical teaching & education in my college & my country, and to raise it up to the international standards of the world's best medical schools & universities.
