٢.	Designing and Executing an Educational Expert System for Simulation of Diagnostic Troubleshooting in Ignitions Systems(Thesis of Master Degree with grade : "Excellent" - ٢٠٠١

Graduated Projects Supervised :-

١.	Design A program of computer for measurements the deflection and bending on beams , Margib University , Al-Khoms, Libya, ٢٠٠٤
٢.	Designing and Executing instruction package for simulation teaching the mathematicians for the primary schools , Polytechnical institute in libdah , al-khoms, libya, ٢٠٠٣
٣.	Uses the Artificial Intelligent in diagnostic the troubleshooting in Computer, ٢٠٠٢.

Research

١. Studying the Buckling in the Pipes that transfer the fluids in the Generating Plants of the Electrical Power in Al-khoms -Libya
٢. Calculating the Suitable Reverberation Time (RT) for Hall of Higher Studies
٣. Studying the Effects of Gears Materials Types on gears Loading
٤. A program Design to calculate the Requirements of the spur gear ◊
٥. Studying and Calculating the properties of the Lubricants Kinematics Viscosity
٦. Studying of Wear Effects on the gears Teeth In Relative to the different Metals at different Conditions
٧. Analysis of the Forces Exerted on the Worm gear teeth
٨. Design A plan to Air-Condition of Factory space for an oil processing plant in Saudi Arabia
٩. Study the properties of Lubrication to avoid the wear In Contacted Surfaces .

Graduation Projects Discussion Committees:-

١. A Chief or Member of Examining Committees for graduation projects in Polytechnical in libdah , Al-Khoms, Libya, ٢٠٠٢-٢٠٠٩.
٢. Theoretical study for design the Heat Exchanger air cooler
٣. Study the effects of deformation in plastic

Teaching Courses :-

١. Artificial Intelligence
٢. Design of Mechatronic Systems
٣. Simulation
٤. Industrial Engineering
٥. Expert Systems
٦. Casting Techniques
٧. Acoustic Engineering
٨. Data Bases
٩. Object Oriented Programming
١٠. Properties of Materials
١١. Computer Architecture
١٢. Metallurgy
١٣. Software Engineering.
