Education:

- A) Ph.D. (University of Technology, 2018)
PhD. Research Title (Study of Wind Energy Recovery from Cooling Tower by Using Wind Turbines)
- B) M. Sc. (University of Technology, 2006)
M. Sc. Research Title (Computational Study of Supersonic Flow over Aerodynamic Configurations)
- C) B. Sc. (University of Technology, 1993)
B. Sc. Research title (دراسة تأثير بلى التعرية على سبيكة المنيوم ليثيوم)

Academic positions:

Service Years: 21 years

Research Intreset:

My PhD. Research interests renewable energy for wind energy by using exhaust air from cooling tower the study include (experimental, Matlab code, Ansys (CFX andFluent).

My M. Sc. Research interest studying supersonic flow over aerodynamic configuration the study include (experimental, Fortran code, Fluent and Gambit codes.
