**Tip: Completing your publication list** ✕

If you just have a handful of publications to add, try using the [DOI/title import option](#).

Otherwise, use the [Web of Science, ORCID, or file upload options](#) to complete your publication list. Don't worry about duplicates; we will detect and remove duplicated publications by title and/or DOI.

**IMPORT PUBLICATIONS**

Use this page to control the publications that will display on your public profile, downloadable record, and in the graphs and metrics here on your dashboard. [Learn more about your publications on Publons.](#)

Add a pre-publication or post-publication review using the form below. See here for more on the difference between the two.

**Pre-publication review**

Load the details of a review you've previously written for a journal or conference.

**Post-publication review**

Write a new review of a published manuscript.

## Journal or conference

## Article

If the article has been published please enter its DOI to ensure we associate your review correctly. As it would be unfair to the author(s) **we do not show the title of the article or publish the content of your review until the manuscript has been published (given a DOI or URL).**

Import article details by entering:

or

## Display preferences

Please select how you would prefer your review to be publicly displayed. We also consider the preferences of the journal, publisher and any authors before displaying a review but will never display more information than your preferences allow. Please do not publish a review if the journal's policy prohibits it. Find out more about review display preferences.

# Browse, search, and explore journals indexed in the *Web of Science*

The *Master Journal List* is an invaluable tool to help you to find the right journal for your needs across multiple indices hosted on the *Web of Science* platform. Spanning all disciplines and regions, *Web of Science Core Collection* is at the heart of the *Web of Science* platform. Curated with care by an expert team of in-house editors, *Web of Science Core Collection* includes only journals that demonstrate high levels of editorial rigor and best practice. As well as the *Web of Science Core Collection*, you can search across the following specialty collections: *Biological Abstracts*, *BIOSIS Previews*, *Zoological Record*, and *Current Contents Connect*, as well as the *Chemical Information* products.
