## **Summary**

**This study sought to reveal the text attributes for the sample from literary heritage and art of prose arts as ( Ibn AL-Atheer message )**

**.**

**Read and re-read the new non tradition by linguistics text .**

**This anew trend in linguistic lesson obtained a plenty of care and attention and they many researchers to enrich the curriculum in search and working to develop it since the fifties of the last century .**

**Since that time the course of linguistic studies standing heading to text as unit of linguistic and semantic evidence one .**

**And seen the relationship which connected the sentences inside the text .**

**It also looks that relations linking the text its context exceed stand at the borders of sentences that was over the ancient language studies .**

**Many researchers and scholars Arab interested to rooting the new theory in the Arab heritage and others studies presented and applied the principles of the theory on ancient literary texts , in an attempt to link heritage with modernity and re-read this heritage lingual reading contemporary .**

**And hence this study was to re-read the text read contemporary literary heritage and importance of studying the texts of the messages in it is a good field to study the text because the text message located between two specific ( sender and receiver ) share the same time and the one linked in the same context .**

**It's perfect modern communicative between two people and represents idial material for the study textual the school adopted the standards of the seven textual provided by.**
