Abstract

The dissertation represents the general aspects of Dr. Kamal Mustafa al-Shibi's thought of his great achievements in human Knowledge that enriched the scientific scene with many books, research papers and articles showing the development of Knowledge in the Arab world in general and Iraq in particular. All his writings have dealt with wide issues of Knowledge as he uncovered many scientific fields hidden like jewels under the ground. Al-Shibi had worked hard on Sufi writings and gathered together from masterpieces, to produce them in a series of works such as (Al- Hallaj poems), Al- Shibi and Al- Sahrawardi Writings which initiated through platonic love, a divine love. He also commented on the work of the Orient list who wrote about AL-Hallaj . The dissertation also focuses the theory of the relation between Sufism and Shiism, which his the main subject that preoccupied Al-Shibi's thought. Al-Shibi has attempted to find the relation between both Sufism and Shiism. A part from all this , the dissertation has undertaken to project the image of the Iraqi Thinker who has always been contained in a limited crucible.
